Example: He is insisting on homeschool because he had a restraining order taken out by the school and was banned from the premises. @Rebecca Johnson I think marriage books do have value in a non-abusive marriage. So I try to be cautious discrediting them all together. I also learned a lot about what a wife and husband who are healthy looked like and that abusive marriages don't fit into the category of typical marital conflict. Conflict is not abuse and these books do not address abuse. So categorically, they are not useful tools. Unfortunatley, the tools available when we don't see the abuse are these kinds of books or counselors we seek believing that we are in a conflict, not in an abusive relationship. There is a lot to minimizing the abuse early on that leads couples to believe it is a marriage issue.

I was one of those kids who begged my mom to leave my dad. I told her it was impossible to heal while continuing to be hurt daily. Even though i rolled my eyes at that answer, i wonder if i would have been better prepared to not marry my own coercively controlling husband if i had seen her stand up to him and allow us to have a voice and have her own

With as many as 1 in 3 women being victims, leaving out the caveat about abuse is extremely harmful. I was enduring abuse for 10 years before I was able to see it. The authors are ignorant of what abuse looks like and can't warn the reader. The only way for an abuser to become safe is to make heart change. This can take 5-7 years working with a treatment provider who will hold them accountable all along the way.
